

Dear Prestel User,

BIG BANG ON PRESTEL !

From October The London Stock Exchange will never be the same again. As a result of the Big Bang, The Stock Exchange will be supplying CitiService with a brand new service called SEAQ (Stock Exchange Automated Quotations system).

CitiService will provide subscribers with the latest prices, highs and lows for 2,700 securities plus last trades and volume figures for the major securities. This will enable you to know the price at which you can expect your broker to buy or sell shares and to check whether you have had a fair deal. After Big Bang, this service will be essential for any financial advisor, company director or active investor.

SEAQ will replace The Stock Exchange's existing service and so CitiService is being re-organised to reflect these changes. CITISERVICE SEAQ will replace the existing LEVEL TWO and LEVEL THREE Closed User Groups. LEVEL ONE will remain unchanged. From 1st October membership charges will be as follows (charges will attract VAT where appropriate):

CITISERVICE SEAQ

- **Latest prices** on 2,700 UK equities and gilts (including last trade and volume on major securities)
- **Traded Option prices**

- **STOCKWATCH** create your own personal SEAQ pages
- **PRICE TICKER** major shares on the move
