January 1986

Dear Prestel User,

I have pleasure in sending you the new Prestel CitiService newsletter. Much has happened at CitiService over the past few months and I have taken this opportunity to outline these developments.

It is our objective to broaden the service to meet the demands of our users and, equally important, to continually improve the speed of updating our information to keep you closer to the markets.

As many of you know we have recently installed new hardware and software and we apologise for any disruption this may have caused. However we are very pleased with the result as our system now operates faster than ever before.

We appreciate that this is particularly important to those of our users who deal in Foreign Exchange, Futures and Commodities where up to the minute information is of critical importance.

As part of our development programme we will be introducing a new service in Spring 1986. Designed specifically for our more frequent users, this service offers continuously updated prices where the prices automatically change on the screen as you watch.

As soon as the service is available you will be contacted. However if you would like further details now, simply call my colleague Adrian Dear.

Yours faithfully

DAVID TAYLOR
Managing Director

P.S. Once you have read CitiNews pass it to a friend or colleague. If they become a new Prestel CitiService registration we'll send you a magnum of champagne – compliments of CitiService.

NEW SERVICE!
