Dear Spectrum User

GREAT NEWS! YOU AND YOUR SINCLAIR SPECTRUM CAN NOW CONNECT TO OUR POPULAR MICRONET 800 SERVICE - AND AT A SPECIAL DISCOUNT PRICE

Thousands of microcomputer users have linked into Micronet 800 since we opened the service a few months ago. We've been gradually adding new types of micro to the service - and the BBC, Tandy and Pet are already able to connect.

TODAY'S NEWS is that Sinclair Spectrum is now available - and there's a special 'early user' deal to ensure you can join Micronet 800 as easily and economically as possible.

As soon as you join you get access to the HUNDREDS of FREE GAMES on the system, plus quizzes, hints, tips, fun features and contact with thousands of other enthusiastic micro users. Soon there'll be a business software service too. In fact, there's always something new on Micronet 800. We keep up with the news, add new games and educational packages, and new branches to the ever growing 30,000-page Micronet 800 database. The special Micronet 800 software lets you download games and other programs for you to run or save as you wish. You can also communicate with thousands of fellow Micronet 800 and Prestel users.

Another plus: you also get access to all the facilities on Prestel, British Telecom's news, business information, entertainment and travel service.

As a special offer to early users we are offering the Prism VTX 5000 modem, which incorporates the software you need to connect to Micronet 800, at the incredibly low price of £74.95 including VAT

Our price for this equipment, which neatly fits under your Spectrum is normally £99.95, but apply NOW attaching the enclosed £25 voucher with your order form and cheque, and we will guarantee you the special early user price.

As part of this offer, we will also supply you with a FREE jack socket installation worth £25 should you need one (see enclosed jack socket form).

Micronet 800 is the trading style of Telemap Ltd and British Telecom. Prestel and the Prestel symbol are trade marks of British Telecommunications. Registered No: 674984 (England) Registered Office: 8 Herbal Hill, London EC1R 5JB

One of the many faces on Prestel

When you join the service we will also send you a regular newsletter and Micronet 800 directory including a database map to help you get the most out of the system. There's so much on Micronet 800 for education and entertainment - it brings your computer to life!

But the Micronet 800 service is not all we are offering you!

With the Prism VTX 5000 - which has a 1200/1200 baud half duplex facility - you can also communicate direct with other Spectrum users.

So, fill in the enclosed order form today and return it to me with your payment (we can't hold the special offer for ever!) You will receive an acknowledgement - then within 28 days we will send you the unique identity that enables you to access Prestel and pass through to Micronet 800. Then the run of the database is yours! And if you stick to the free Micronet 800 times (evenings and weekends) you won't pay any computer connect charges to Prestel either.

Make sure you're one of the first Spectrum users to enjoy all Micronet 800 has to offer - read the enclosed information to see what's in store, then return the application form to us as soon as you can to be sure of the 'early user' price.

Yours sincerely

A handwritten signature in cursive script, reading "Beverley Dellow". The signature is written in black ink and is positioned below the typed name.

Customer Sales Manager

PS Return the form quickly as our special free jack socket offer just can't last long!

PPS If you have changed your computer, or we have made a mistake and you have some other type - write and tell us. We'll come back to you when we have a connection for your particular make of computer.
