Dear ZX 81 User

Thanks for enquiring about our Miconet 800 service. Since the database opened, subscriptions have been flooding in from BBC and PET owners - the first two micros able to connect to Miconet 800. Now Spectrum, Apple and Tandy owners are joining too.

We are now considering developing networking software to enable ZX 81 users to connect to our exciting and expanding service. But before we go ahead, we are assessing the demand for such a product.

We've enclosed details of all the fascinating ways you could use Miconet 800. But don't forget, it's an expanding service - a living database - so you could expect a lot of growth, new sections and new applications. Another plus: you would also get access to all the facilities on British Telecom's Prestel service, including thousands of pages of news, business information, entertainment and travel.

To connect your micro to Miconet 800, we would offer you modems supplied by Prism Microproducts Limited. We could supply you with the Prism Modem 1000, a direct connect modem which fits neatly under your telephone, providing not only full-duplex 1200/75 bps for Miconet 800 but also half-duplex 1200/1200 bps for user-to-user communications. The price of the Modem 1000 is £69.95 inc VAT, and you would also need to buy the networking software to enable you to link into Miconet 800, price £29.95 inc VAT. Your cheque would also have to include £3.75 for postage and handling. The total price is therefore £103.65.

The software supplied would be ROM based enabling immediate loading, and would offer a variety of facilities including full 40/24 Prestel alphanumeric and graphics display, off-line preparation of mailbox messages, and automatic telesoftware downloading.

If you would seriously consider using the Miconet service as described in this letter, please help us by completing the enclosed card and returning it to us. (Don't forget to mark "ZX 81-Nov" under "Type(s) of Computer" section on the card.)

Yours sincerely,

A handwritten signature in dark ink, appearing to read "T. R. Schoonmaker", written in a cursive style.

T. R. Schoonmaker,
Manager Marketing & Sales.

Miconet 800 is the trading style of Telemap Ltd and British Telecom. Prestel and the Prestel symbol are trade marks of British Telecommunications. Registered No. 674984 (England) Registered Office: 8 Herbal Hill, London EC1R 5JB.
