

PAYING FOR PRESTEL

PRESTEL CHARGES

Standing charge All Prestel customers pay a quarterly standing charge - this is £18.00 per quarter for a business customer and £6.50 per quarter for a residential customer.

Time charge This charge applies only when a connection to Prestel is made during a standard rate period. At all other times this charge does not apply.

The standard periods and charges are:

| | |
|-----------------------|---------------|
| 8am-6pm Monday-Friday | 6p per minute |
| 8am-1pm Saturday | 6p per minute |
| All other times | Free |

Page charge Some pages (generally the most frequently updated) carry a viewing charge. This is set by the Information Provider of the page selected and the amount payable appears on the top line of the page. The vast majority of pages, however, carry no charge.

TELEPHONE CHARGES

While connected to Prestel you will be paying for a telephone call to the Prestel computer you are using. The majority of customers can now receive Prestel at local rates. It may also be necessary to install a socket for connection to Prestel.

BILLING

All Prestel charges are billed quarterly and separately from your normal telephone bill. However, telephone charges incurred while using Prestel will be included on the telephone bill.

SPECIAL TARIFFS

Certain Prestel services such as Prestel Microcomputing attract special tariffs. Please enquire about these when joining the service.
